

AFC BOURNEMOUTH

EDUCATION AND INFORMATION

The club will encourage staff and other stakeholders as to share our commitment and contribute to our aims.

RECYCLING AND WASTE MANAGEMENT

Continue reduction of single use plastic at the stadium and expand to all areas of the club.
Ensure as much waste as possible is recycled in an environmentally friendly manner.

SCOPE

As a club AFC Bournemouth is fully aware of its responsibilities within the local community with regards to the environment and sustainability. As part of this commitment, we believe we have a vital role to play in minimising the impact the club, staff and fans have on the environment.

This policy will be implemented at club sites and across all club activities.

It is the policy of AFC Bournemouth to, where possible, reduce its environmental impact and as a club continually to develop, regularly review and improve all our environmental objectives as far as possible.

Ensure that environmental impact is considered in all club plans and procedures including development, refurbishment, travel and matchday and community activities.

The Chief Executive has overall responsibility for the environmental impact of the club. The implementation of the Environmental Policy will be undertaken by the Head Catering Operations supported in day to day operation by the Heads of Departments.

In addition, it is the responsibility of all staff and other stakeholders associated with the club to ensure as far as possible adherence to this policy.

FUTURE ACTIVITIES

PROCUREMENT FROM OUR SUPPLIERS

The club will endeavour to ensure that our current and future suppliers comply with our sustainability and environmental guidelines and vision.

ENERGY AND WATER CONSUMPTION

The club will monitor historical and future use and set target reduce use in all areas.
